# You don't lack experience. You lack evidence.

## I can build it, so can you.

STEPSMART

# PM–X Accelerator

An 8-week, mentor-led program designed for professionals who want to break into Product Management.

- Learn Product Thinking
- Build your PM portfolio
- Master interviews.
- Use AI like modern PM.

8 WEEKS • LIVE MENTORSHIP • PM PORTFOLIO • INTERVIEW PREP

THE ROOT PROBLEM | INDUSTRY HIRING REALITY

# The most common reason people get stuck

**60%**

SURVEY FINDING · ASPIRING PRODUCT MANAGERS

**of aspiring PMs we surveyed said their biggest blocker is "no PM experience on my resume."**

You've read the frameworks. You've watched the videos. Maybe you've done a case competition. But when a recruiter opens your resume, there is nothing to point to.

So you apply, wait, and get no calls. Or you get an interview and can't say *"here's what I built."*

TRAP #1

### Framework Memorisation

Reciting CIRCLES or RICE without context flags you as a beginner in 60 seconds.

TRAP #2

### Passive Video Watching

Watching someone else design an MVP gives you zero tangible artifacts for hiring managers.

TRAP #3

### Generic Case Comps

High-level 5-slide decks don't show PRD depth, telemetry, or user research rigor.

**Experience takes a job. Evidence takes a project.**

Evidence is a product you analysed, researched and designed, documented well enough that a hiring manager can read it in five minutes.

THE PM-X COMMITMENT

**This is what you build your evidence by**

**8 Weeks**
STRUCTURED DURATION

**24 Classes**
48 LIVE INTERACTIVE HOURS

**1 Project**
PRODUCTION-GRADE RESUME PROOF

**4 Assignments**
MENTOR-GRADED DELIVERABLES

WHO IS THIS FOR?

**I'm starting from zero**
I need the concepts, a real project and interview practice

**I know the basics, I need one thing**
Either proof for my profile or interview practice

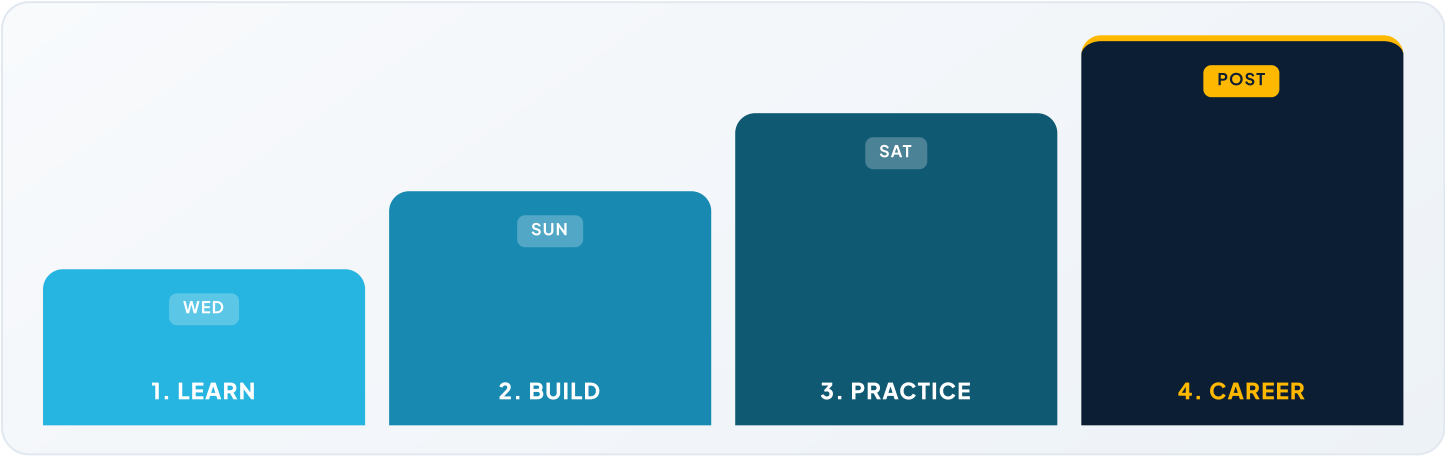

**Anyone from any background who wants to become a PM**

*Source line: StepSmart survey of 43 aspiring PMs, 2026.*

THE METHODOLOGY PROVEN FRAMEWORK

# Four steps. One finished project.

A structured, end-to-end curriculum engineered to transform aspiring candidates into credible, interview-ready product managers with proof of execution.

01 STEP

## Step 1: LEARN WEDNESDAYS

Understand how product teams think. 8 live classes on product thinking, research, strategy, MVPs, AI and tech basics, plus pre-recorded modules.

✦ **Outcome: You can talk about product like an insider.**

02 STEP

## Step 2: BUILD SUNDAYS

Work on one real project, start to finish: teardown, market research, user research, data analysis, PRD and a clickable prototype. A mentor reviews your work.

✦ **Outcome: A documented project case study.**

03 STEP

## Step 3: PRACTICE SATURDAYS

Mock case interviews, root cause analysis, product design, metrics, estimation, behavioural rounds and stakeholder stories, with question banks to practice on.

✦ **Outcome: You can structure an answer under pressure.**

04 STEP

## Step 4: CAREER AFTER THE COURSE

Your resume and LinkedIn are rebuilt around your finished project. You get the StepSmart job board, which collects PM openings from hiring sites, free for 3 months.

✦ **Outcome: Proof you can show, and roles to show it for.**

OUR FLAGSHIP DAILY LEARNING **PM Gym** (daily product practice)

SYLLABUS ROADMAP | 8-WEEK INTENSIVE MATRIX

# What happens each week

Three live classes a week, plus assignments.

| WK | LEARN (WED) | BUILD (SUN) | PRACTICE (SAT) |
|---|---|---|---|
| 01 | **Product thinking mindset** | Product teardown | Clarifying question |
| 02 ★ | **Business viability**, market research | Market research | Root cause analysis |
| 03 | **Primary research**, segmentation, JTBD, journey maps | User research | Market sizing, estimation, communication |
| 04 ★ | **Product strategy basics**, research synthesis | Data analysis | Product design and improvement |
| 05 | **Ideation**, solution design, prioritisation | PRD (Product Requirement Doc) | Product metrics and analytics |
| 06 ★ | **MVP, A/B testing**, GTM, AI-assisted PRD | Clickable prototype | GTM strategy |
| 07 | **Tech 101**: APIs and system design | Mentor review | Pricing questions |
| 08 ★ | **AI 101**: RAG, prompting, fine-tuning | Resume, LinkedIn, final case study | Mock case interviews, Behavioural Storytelling |

★ **Graded week:** Assignment due & verified by mentor for certificate credit.

*All sessions recorded & uploaded within 4 hours.*

## KEY DELIVERABLES CHECKPOINTS

**WEEK 2**
### Market Research
Competitor & TAM analysis

**WEEK 4**
### Problem Framing
Persona and JTBD Validation

**WEEK 6**
### Prototype
Clickable user journey flow

**WEEK 8**
### Final Case Study

**WEDNESDAY**
Live LEARN class

**SUNDAY**
Live BUILD session

**SATURDAY**
Live PRACTICE mocks

**EVERY DAY**
Daily PM Gym questions

**SUPPORT**
WhatsApp doubt support

**Note:** Exact dates and class timings are shared after enrolment. Schedule is optimised for working professionals and final-year students (weekday evening + weekend slots).

TANGIBLE DELIVERABLES | FIT & ELIGIBILITY

# What you walk away with

## GUARANTEED TANGIBLE OUTPUTS

- ✓ **A documented PM project case study** (teardown to prototype)
- ✓ **A resume and LinkedIn profile** built around that project
- ✓ **Interview question banks** and 8 practice sessions
- ✓ **Mentor feedback** on your project
- ✓ **Recordings of every class** you attend
- ✓ **Completion certificate** (for attendance and assignments)
- ✓ **StepSmart job board access** for 3 months after the course

## ✓ THIS IS FOR YOU IF:

- You're switching into PM from another field, or are a student preparing for placements
- You can give about 6 hours a week plus assignments
- You want to build something, not just watch videos

## ✗ THIS IS NOT FOR YOU IF:

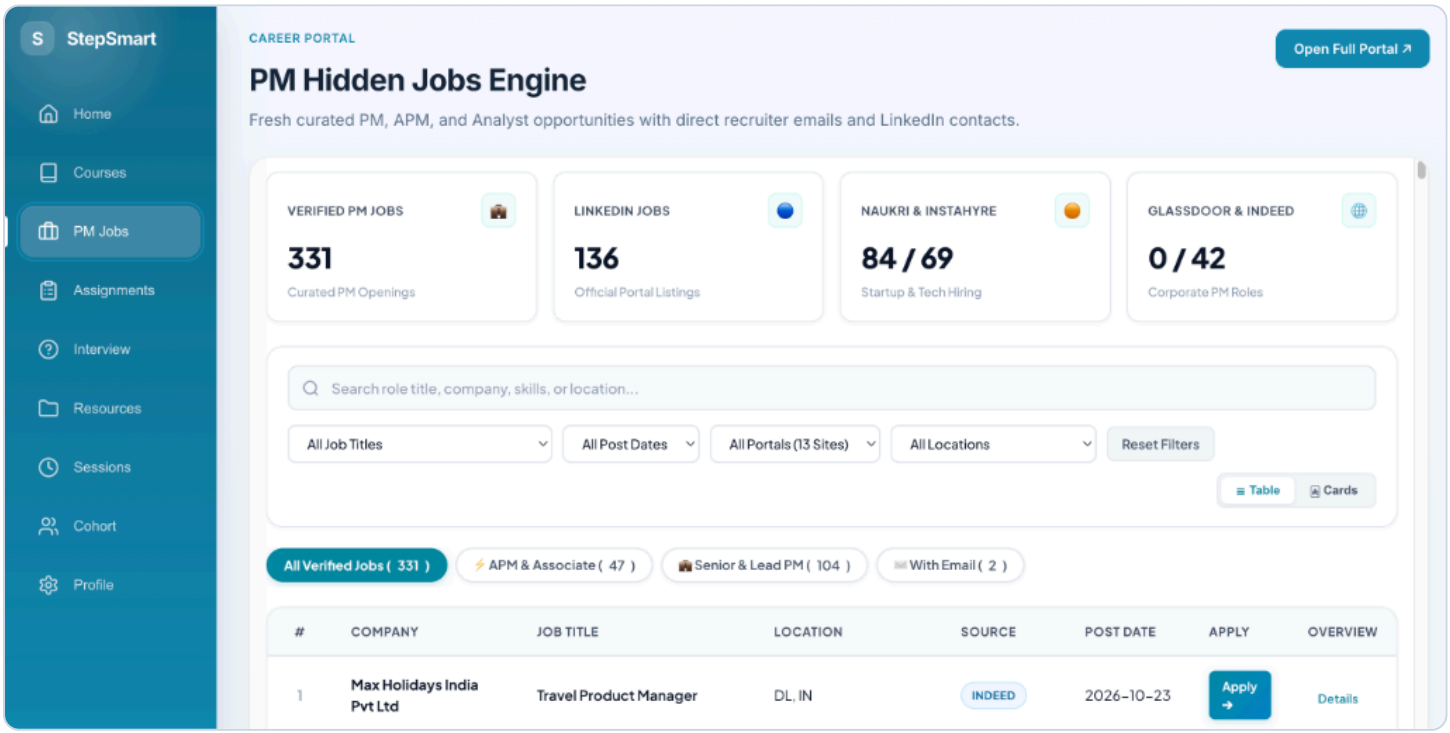

- You want a job guarantee (nobody can honestly promise one)
- You want only recorded content with no live work
- You can't commit to the schedule for 8 weeks

**An honest note:** Your project is documented project work. You list it under "Projects" on your resume. It is not job experience, and we won't ask you to say it is. It is proof of how you think and what you can build.

## 🏅 CERTIFICATE CRITERION

## 💼 STEPSMART JOB BOARD (PM HIDDEN JOBS ENGINE)

**We are not just another course. We are an experiential learning mentorship based cohort.**

INDUSTRY PRACTITIONERS | 1:1 MENTORSHIP

# Mentors

Learn from experienced PMs at top global companies who have navigated career transitions themselves.

### Sanket

**Senior PM · Mastercard**

Expert in behavioral interviews and product sense frameworks, with deep specialization in scaling fintech products for the global market.

### Ankit

**Product Manager 2 · Microsoft**

Leads enterprise-grade AI product development at Microsoft. Expert at turning ambiguity into clarity for complex product strategy, with a focus on scaling AI-native products from 0 to 1.

REAL PEOPLE. REAL TRANSITIONS.

## Our mentees' stories

**T**

### Triya

"PM-X gave me the clarity and confidence I needed to make the transition."

**BUSINESS ANALYST**
↓
**PM @ ACKO**

**N**

### Nishant

**Student → APM Intern**

Surepass Technologies

"From zero interview calls to landing a PM internship in under a month"

**G**

### Gauri T.

**Product Manager**

"Watching peers articulate product thinking made me believe I could become a PM."

**N**

### Nishtha

**Product Manager**

Amex

"PM-X helped me break overwhelming case studies into clear, actionable chunks."

**It's your chance to be one of them.**

ADMISSIONS | EARLY BIRD OFFER
